

UCL RESEARCH STUDY · SEPTEMBER 2026

Join the Minds in Motion study

Participate in cutting edge scientific research

What does space do to the mind? Help UCL researchers find out inside a unique 40,000 m² state-of-the-art research facility.

Led by **Prof. Hugo Spiers** (UCL Experimental Psychology), **Dr Fiona Zisch** (UCL Bartlett School of Architecture) and **James Moultrie** (PhD student, UCL)

- ▶ Explore purpose-built architectural spaces at UCL PEARL in Dagenham, East London
- ▶ Wear EEG headsets, eye trackers, and biosensors, all fitted by the research team
- ▶ One hour in total. No specialist knowledge needed. All adults aged 18 and over welcome.
- ▶ Your data contributes directly to how hospitals, schools, and offices will be designed

◆ Follow-up to **100 Minds in Motion** (Sept 2024), as featured by **MIT Technology Review**, **UCL News** and **Autodesk Research**
